

CARDITOLOGY

Vision · Soul · Spirit

Free is not freedom.

Freedom is a vision.

Sound is not an object.

It is a field of consciousness.

Improvisation is not the absence of form,
but the act of perceiving form while it is being born.

Vision, Soul, Spirit

are not metaphors,

but interconnected dimensions of human action.

Carditology is a space where

harmony thinks,

melody remembers,

and rhythm decides.

This is not a method.

It is a practice of awareness.
